

# What is the COACH Learning Method?

It is much more than just "tutoring". COACH learning occurs by teaching today, in a way that will benefit the learner for a lifetime. The focus is not just on acquiring skills, but on acquiring attributes that empower and inspire students to be "life-long learners". COACH stands for **Confidence, Optimism, Ability, Courage and Hope**. We believe these attributes are the FOUNDATION for successful academic progress.

"When I created The Learning Coach Tutoring Services, I built it around my philosophy that a confident learner can take on any academic challenge and succeed. I consider myself to be "life-long learner", as I am always looking for new opportunities to learn and reach my own full potential. My passion for learning has led me to obtain a Master's Degree in Education, a Bachelor's Degree in Radiologic Science, and a Certificate in Distance Education. Over the past 15 years plus, I have enjoyed spending countless hours writing curriculum, designing learning tools, and training other instructors. However, what I've enjoyed most is learning from others around me- including my own students! My Passion is truly my Purpose."

## How Does it Work??

We know it is difficult getting errands done, taking kids to school, to soccer practice and battling traffic! So when it comes to tutoring, we've taken travel out of the equation. **WE COME to YOU!**

Tutoring can be done either in your home or at an agreed upon, convenient public place.

Our prices range per service; but reasonably began at **\$38.50-\$45 per session** (see our website and policies for more specific information).

We take several forms of payment, including Cash, Personal Checks, and Major Credit Cards.

Discounts are available for advance payment, multi-client households and small group sessions!

To schedule a complimentary consultation, simply call

**813-563-6960** or request a tutor via the website-
